

Mills Lawn Recess Rock Stars

May 2010

Mills Lawn Recess Rock Stars is an incentive program for students with the goal of improving recess behavior and helping to make adults more aware of what is happening during this time. Recess monitors and the students were informed of expectations on the playground, including good sportsmanship, following rules, and positive social interactions, prior to the program beginning. Each day several students in each recess period are chosen for demonstrating these behaviors and are awarded small tokens, recognized, and entered into a drawing for a small trophy.

So far, there has been an overall improvement and many students are excited and working very hard to give their personal best. All students will be rewarded in the end for doing so. We are also working hard to help them succeed and hope they will continue their efforts once the four week program concludes mid-May!
